Hello, my name is Donald Berment, from the twin island Republic of Trinidad and Tobago in the West Indies and I have been doing research in the Sector of Housing and Settlement Development for over 46 years and have been diligently putting most of the work in a Cloud Archive <https://www.archive.org/details/@mavawsec>. A total of 178 Uploads to date.

I started an online Community Psychology Course this week with <https://www.alison.com>. A training programme with 25 Modules, allowing for a Diploma at the end if all requirements are met.

A beautiful History of Community Psychology has been given so far in the start-up Modules and the PDF Introduction to Community Psychology noted.

Followed that trail and came upon your website. Excellent work you are doing and if any of my uploads peak your interest, feel free to use them.

This research in Domestic Architecture, in the Built Environment, resonates intimately with the development of Community Psychology, which it just being 53 years old, compared to Architecture with a history of centuries.

Was most pleased to read the philosophy of SCRA (Society for Community Research and Action) and the technique of sharing for free. Something I have been doing for a long time in the Disciplines which interact with this Housing and Settlement Development Sector viz, Architecture, Law, Social Psychology, Political Science and Parenting Science.

My efforts will not stop and with God's blessings, my work can be eventually published in all its diversity.

This Cloud archive has 63 Billion web pages in addition to my own and the future can access, analyze and continue my efforts as seen fit. Please keep up the excellent work your Society is doing.

Signed..... Donald D. Berment, Specialist HSDS/NGA/DVC.

Housing and Settlement Development Sector/Natural Growth Architect/Domestic Violence Counsellor.
